5. EVALUATION SYSTEM

5.1 Course Work Evaluation

The Course Work Evaluation shall be similar to that of other courses. The details are provided in the Regulations (General) Common to all Degree Programmes (Refer Section G5).

5.2 RPAC Panel Constitution and Research Proposal Submission

5.2.1 RPAC Panel Constitution

Before submitting the research proposal, the student must constitute the Research Progress Assessment Committee (RPAC).

The procedure is as follows:

1. The student shall submit the Research Topic through the IRIS PG Dashboard.
2. The student shall request the Research Guide to nominate:
3. Three faculty members from the parent department.
4. Three faculty members from other departments.
5. The application shall be processed through IRIS and approved by:
6. Research Guide
7. DPGC Secretary
8. DPGC Chairman
9. After obtaining the approvals, the student shall download the application from IRIS.
10. A hard copy of the application shall be signed by:
11. Research Guide
12. DPGC Secretary
13. DPGC Chairman
14. The signed application shall be submitted at the department reception, which will forward it to the Academic Section for approval by the Dean (Academic).
15. The Dean (Academic) shall nominate two members from the panel of faculty members proposed by the Guide, thereby constituting the RPAC.

5.2.2 Research Proposal Submission and Assessment

Every M.Tech. (Research) student is required to submit a Research Proposal within one year of joining the programme. The proposal shall include problem identification, literature survey, state-of-the-art technology, objectives, methodology, and research plan.

The assessment process is as follows:

1. The student shall initiate a Proposal Submission request through IRIS using the title of the proposed research work.
2. The Guide shall schedule the proposal presentation date through IRIS.
3. The application shall be approved through the same workflow as the RPAC Panel Constitution:
4. Guide
5. DPGC Secretary
6. DPGC Chairman
7. Dean (Academic)
8. The student shall prepare:
9. Research Proposal Report
10. Proposal Presentation
11. Prescribed forms and documents
12. The RPAC shall assess the proposal through an open seminar and communicate its recommendation to the Dean (Academic) through the DPGC.
13. Students are advised to arrange for a colleague to record the comments and suggestions provided by the RPAC members during the presentation.
14. These comments shall be documented as the Minutes of Meeting (MOM).
15. After the assessment, the student shall submit:
16. Soft-bound copy of the Proposal Report
17. Proposal Acceptance Form
18. Minutes of Meeting (MOM)
19. The required signatures shall be obtained from:
20. Research Guide
21. RPAC Members

5.3 Research Progress Assessment

5.3.1

After approval of the Research Proposal, half-yearly assessments shall be conducted through open seminars to ensure satisfactory progress.

The student shall:

1. Submit a progress report through the Guide to the RPAC twice every year.
2. Deliver a presentation before the RPAC.
3. Submit all prescribed forms and reports as provided in the Progress Assessment documentation.

The RPAC shall communicate detailed comments and recommendations to the DPGC, which shall forward the same to the Dean (Academic).

5.3.2

The continuance of registration of all M.Tech. (Research) students is subject to satisfactory research progress as assessed by the RPAC.

5.4 Pre-Synopsis Seminar and Synopsis Submission

5.4.1

Prior to submission of the Synopsis, a comprehensive internal assessment of the research work shall be conducted by the RPAC through a Pre-Synopsis Seminar.

The candidate may submit the Synopsis only if the RPAC is satisfied with the quality and completeness of the research work.

5.4.2

The details of the Pre-Synopsis Seminar shall be notified sufficiently in advance to enable interested faculty members and students to attend.

5.4.3

The Chairman of the DPGC shall forward the RPAC assessment report on the Pre-Synopsis Seminar to the Dean (Academic).

5.4.4

The student shall:

1. Prepare a Synopsis Report and required forms in the prescribed format.
2. Deliver the Pre-Synopsis Presentation before the RPAC.
3. Obtain the RPAC Observation Report after the presentation instead of a Minutes of Meeting (MOM).
4. Submit one printed copy and one soft copy of the Synopsis through the Chairman, DPGC, to the Dean (Academic).

The Synopsis shall not exceed 15 pages, including bibliography.

5.4.5 Selection of Thesis Examiners

After successful completion of the Pre-Synopsis Seminar, the Research Guide shall recommend:

- Three External Examiners
- Three Internal Examiners

The panel shall be forwarded through the DPGC for consideration during thesis evaluation.

5.5 Thesis Submission and Assessment

5.5.1

Prior to thesis submission, the scholar shall have at least one paper published, preferably in a refereed journal or refereed conference proceedings.

5.5.2

Three printed copies and one soft copy of the thesis, in the prescribed format, shall be submitted to the Dean (Academic) through the Chairman, DPGC, within three months from the date of Synopsis submission.

5.5.3

The student shall submit:

- Authorization from the Research Guide(s) for thesis submission.
- No-Dues Certificate from the Accounts Section.
- All prescribed forms and supporting documents.

5.5.4

The thesis shall be evaluated by the M.Tech. Thesis Assessment Committee (MTAC), constituted by the Dean (Academic), by selecting one internal examiner and one external examiner from the panel recommended by the DPGC.

5.5.5 – 5.5.13

The evaluation, re-submission (if required), viva-voce examination, approval process, submission of final bound copies, and award of degree shall be carried out in accordance with the M.Tech. (Research) Regulations 2024.

---

6. DEGREE REQUIREMENTS

The degree requirements for the award of M.Tech. (Research) are:

(a) Institute Requirements

1. Completion of at least 12 credits of Course Work and the mandatory MLC course HU800:

2. Within the first three semesters for Full-Time students.

3. Within the first six semesters for Internal/External Registrants.

4. Securing a minimum CGPA of 5.50 in the Course Work.

5. Successful completion and defense of the M.Tech. (Research) Thesis.

(b) Maximum Duration

The maximum duration for completing all degree requirements shall be:

- Four years for Full-Time students.
- Five years for Internal and External Registrants.
